

## DISASTER ASSISTANCE RESPONSE TEAM

Our Disaster Assistance Response Team (DART) provides relief to victims of disaster world-wide, offering water, food, shelter and medical care. DART members are trained, specialised professionals who stand ready to respond at a moment's notice whenever and wherever disaster strikes, and no matter where they go, they always go in the Name of Jesus Christ.

We have responded to devastating earthquakes in Haiti, Ecuador, and Nepal; typhoons in the Philippines; and to large-scale in Europe, the Middle East, Africa and Ukraine. We have sent teams to fight infectious diseases such as Ebola in the Democratic Republic of the Congo and diphtheria in Bangladesh. We deployed our Emergency Field Hospital to places like Cremona Italy and New York City during the COVID-19 pandemic. We are currently deployed to the crisis in the Ukraine.
